XR TRAINING & VISUALIZATION

BUILD IT. OWN IT. MANAGE IT.

modest tree Xplorer

In just minutes, you can turn your digital assets into interactive and highly engaging XR experiences that can be shared simultaneously on PC, mobile, VR, and AR!

AWARD-WINNING

Xplorer harnesses the value of your models, your expertise, and your content and enables anyone to develop immersive AR/VR training and visualization. With multiplayer capabilities across any platform type, connect with teams globally by leveraging Xplorer's intuitive features. Create engaging, interactive virtual learning presentations and product visualizations, used by leading enterprises, manufacturers, and OEMs worldwide.

CROSS-PLATFORM MULTIPLAYER

Allow users to simultaneously interact in your XR presentation from anywhere, on any device, including PC, mobile, tablet, virtual reality and augmented reality

REDUCED COST & RAPID DEVELOPMENT

Xplorer significantly reduces costs and deployment time throughout the entire development and training phase of a product, and ensures safe training around potential hazards

CONTENT FREEDOM

Allow us to create your lesson for you, or easily create your own. Import your own digital assets, and update and add new content to your library as your business, products, and processes grow and change

THE LEADING SOFTWARE FOR RAPIDLY CREATING IMMERSIVE CONTENT. OUR PLATFORM. *YOUR WAY.*

IMMERSIVE TRAINING APPLICATIONS

Enhance knowledge retention, and engage learners safely and effectively with training on internal parts, complex systems, and emergency situations, without risk to your assets or personnel. Develop self-paced, or instructor-led courses in a collaborative, immersive environment for use on any platform

PRODUCT VISUALIZATIONS

Engage sales and marketing prospects with remote sales presentations, virtual showroom tours, and interactive XR product showcases at trade shows. Let users interact with your products hands-on, virtually
